

REPORT

An extramural webinar was organized by Department of Education, Pattamundai College, Pattamundai on 28.09.2020 on the title "**ICT Enabled Teaching Learning Practices**" at 11.00 am in library through Zoom Cloud Meeting. The Resource Person for the webinar was **Dr. Sarat Kumar Rout**, Asst. Professor in Education, Ravenshaw University, Cuttack. The convenor of the Meeting was Ms. Nibedita Nayak, Head & Lecturer in Education, Pattamundai College. There were 160 registration for the webinar.

At the outset Ms. Neerupama Swain, Lecturer in Education, Pattamundai College welcomed all the participants and resource person and read out the theme paper of the webinar. Ms. Nibedita Nayak had introduced the resource person to the participants. Then Dr. Sarat Kumar Rout, had deliberated upon the importance of technological advances in this pandemic time and the need to skill up the advances. In his deliberation he spoke about the different tools which need to be known and practice by the students. In particular he talked and demonstrated the concept, process, modus-operandi and uses of C-Map, Prezi and Wakelet tools. It was a step by step demonstration of each tool, which was very much liked by the students. He ended his talk with the appeal to the students to practice it.

The meeting ended with a vote of thanks to the Principal Sri A L N Dash and to the resource person Dr. S.K. Rout by Ms. Neerupama Swain, Lecturer in Education, Pattamundai College.

Dr. Sarat Kumar Rout

Educational qualification:

- M. A (Education) from Ravenshaw university
- M.A History from Utkal University
- M.Phil from RNIASE, Cuttack
- B.Ed from Rohatak University
- PGDDE from IGNOU
- Ph. D from Lucknow University

Professional Experience:

Presently working as Assistant Professor (stage-III) in School of Education, Ravenshaw University since 2010 till date. *Before joining in Ravenshaw*

- Started carrier as Junior Project Fellow (JPF) in DTEE-NCERT, New Delhi in 2002
- Joined as Lecturer in RCIT, Affiliated college of Guru Gobinda Indraprastha University, New delhi from 2003 to 2009.
- Joined as Programme officer in DEP-SSA, IGNOU, New Delhi in 2009

Areas of Specialization

- Educational Technology and Application of Advanced ICT tools
- Educational assessment
- Curriculum Construction and Evaluation
- Policy and Plan of School education
- Mixed method Research

Research Exposure:

- 17 M.Phil scholars have been awarded so far
- 07 Ph. D scholars have been awarded so far
- Completed 02 major projects funded by ICSSR, New Delhi and ERIC, New Delhi
- Organised one national seminar funded by ICSSR, New Delhi

Publications:

- 48 research and concept papers published in reputed national and international journals
- 50 papers presented in national and international seminar
- Contributed 11 chapters in edited books
- Published two books by national publisher
- Worked as a resource person for NCERT, NIOS, IGNOU and NCTE since 2008
- Delivered talks as resource persons in 18 national platforms

ICT ENABLED TEACHING LEARNING PRACTICES

Dr. Sarat Kumar Rout
Asst. Prof., Department of Education
Ravenshaw university, Cuttack

In this era of pandemic and digital learning, technology plays a crucial role in the process of knowledge dissemination. Though there are thousands of applications/technology tools available in the market, only a handful of them are popular among the students and educators. In the world we live in is, technology is literally everywhere and the kids adapt to it more than anyone else. Unlike teachers, students are being raised in a digital world. For students of all ages, it is absolutely natural to use technology in every aspect of their lives. This is why digital tools in classroom are becoming more and more crucial. Traditional methods for teaching are already going through a transformation to adapt to the needs of 21st-century students and to enhance the professional practice of teachers. The digital future is literally happening now in this pandemic situation.

Using technology for education provokes student's curiosity, boost their engagement, and leads to better learning and comprehension. These factors are a priority for every effective teacher and today they can be easily achieved by using digital tools in classroom.

Instead of taking notes, students are now occupied by surfing the Internet, scrolling through Facebook, and messaging their friends on their smart phones, tablets, and laptops. Instead of focusing on the instruction, teachers are constantly required to interrupt class in order to remind those students again and again, that class time is for learning, not texting. However, as today's students are using more technological devices, it is imperative that teachers have access to the resources to keep pace with the growing tech culture.

The use of smart phones, tablets, and other tech items in the classroom do not necessarily have to have a negative impact on student achievement. On the contrary, the increasing accessibility and growth of technology presents teachers with the unique opportunity to take advantage of those once distracting gadgets, and use them to facilitate academic achievement in new and innovative ways. In this capacity, teachers do not need to be constantly fighting for student attention, but can freely

accept it, by introducing a new educational environment that will automatically encourage student participation.

Today I am bringing to you three digital learning tools that can be used by teachers and students to expand their knowledge and make learning easy and fun.

C-map Tool-

Cmap software was developed by the researches conducted at the Florida Institute for Human & Machine Cognition (IHMC). It empowers users to construct, navigate, share and criticize knowledge models represented as concept maps. Concept maps are graphical tools for organizing and representing knowledge in an organized fashion.

- Let us Learn what concept maps are, how to construct them, and use them through the live demonstration.

Wakelet App-

Wakelet is an easy and enjoyable way to save, organize and share content from across the web. With Wakelet, you can bookmark the content that matters to you, organize it how you like, and add your own images and notes to give context. People everywhere are using Wakelet to save, organize and share content in stunning, visual collections. So, whether you're a student, traveller, blogger, brand or business, it's easy to start bookmarking and sharing great content. With Wakelet you can easily save and organize links to articles, videos, tweets, and any other piece of content. You can also add your own images and notes. Save links straight from your phone browser using the Wakelet extensions. Create stunning collections of content, which can be kept private or made public. Discover news articles on subjects that interest you and add them straight into your collections. Reorder your content at any time and present your collections in different layouts. Share your collections on social media or via a single link. Embed collections on your own blog or website. Like collections to stay updated when new content is added. You can explore collections created by others and follow the people you find interesting.

- Here goes the live demonstration will help you get the hang of the software.

Prezi.com-

Prezi is a digital software for creating interactive presentations. According to the recent researches, the innovative way in which Prezi helps you make presentations – by zooming, leads to more effective, more persuasive, more effective, and more engaging presentations compared to presentations made with PowerPoint. Prezi is a fantastic tool for changing the way teachers and students present, moving away from the standard slide-by-slide model, and using a visually stimulating canvas that moves from point to point. Prezi is simple to use, visually stunning, and includes all the standard components of a normal presentation. The variations of presentations are endless, encouraging students and teachers to creatively customize each presentation to enhance how the audience members receive the information.

- Let us learn the creation of slides through this live demonstration.
